individuals who have changed their address since last receiving our journal are invited to send us a note indicating by also mentioning their old address hereon.

This Autumn Reminder

—is a reminder of the more important varieties of flowers and vegetables which should be planted in the early Autumn (January, February and early March) to obtain the best results. It is in no way a complete list (see Yates' Annual General Catalogue—available about March) and contains only such varieties as we think will be most likely to give satisfaction.

We hope and feel sure it will interest you, especially as such important items in the flower garden as Sweet Peas, Pansies, Gladioli, Daffodils, are included.

We offer to all garden lovers our best wishes for the New Year and express the wish that their gardens may yield to them big dividends in fragrant colorful flowers and crisp health-giving vegetables.

Jan., 1930.

PLEASE READ OUR TERMS OF BUSINESS

IT WILL HELP YOU AS WELL AS US.

Conditions of Sale and Non-Warranty

WE believe that all Seeds Bulbs and Roots sold by us are of the description and kind specified by us at the time of sale but owing to the practical impossibility in many cases of being certain of this we give no undertaking that such Seeds Bulbs or Roots will correspond with the description under which they are sold and we make all sales subject to this condition. We further give no warranty expressed or implied as to their growth description quality or productiveness and will not be in any way responsible for the crop. If the purchaser does not accept the goods sold to him on these terms they are at once to be returned to us and any money paid to us will be refunded.

How to Order Seeds, &c.

FROM THE STORE IN YOUR TOWN, STOCKING YATES' PACKET SEEDS.

In almost every town and village of importance throughout the Commonwealth there is at least one leading retailer who stocks Yates' Reliable Seeds in sealed and dated packets. These packets are always fresh, as old stock is regularly destroyed by us and replaced with new season's packets. Note the name and date on every packet.

DIRECT FROM OUR MAIL ORDER DEPARTMENT.

We have established a special department with all facilities for dealing carefully and expeditiously with this important and increasing section of our business. The Order Blank accompanying this catalogue will be found convenient for customers, and its use will facilitate our prompt filling of orders.

REMITTANCES.

Except where customers have an account with us, all orders must be accompanied by remittance, which should be in postal notes, money orders, or small amounts in stamps. If country cheques are sent, 6d. for exchange must be added.

POST TOWN, STATE and SIGNATURE.

Please be sure that your order bears these particulars before posting. Ladies will assist us in avoiding errors in addressing by prefixing Mrs. or Miss, as the case may be.

METHOD OF FORWARDING

Customers are requested to give full and careful directions with each order as to the method they wish goods forwarded, and we will do our utmost to comply with them. When no instructions are received we send according to our judgment.

Suggested Sowings in the **VEGETABLE GARDEN**

DURING JANUARY AND FEBRUARY

BEETROOT.

Sowings can still be made almost anywhere, but, as the autumn approaches, plantings should be confined to sunny situations in the warmer districts. For the home garden we specially suggest Yates' Obelisk, a very early variety of the highest quality, while, for market use, Early Flat Egyptian (a highly selected stock of Egyptian Turnip Rooted) is still the favorite sort.

Silver or Spinach Beet should not be overlooked at this time, as it is an excellent summer vegetable. Remember to pull and not cut the leaves when gathering.

Yates' Obelisk. Pkt., 6d.; 1/- oz.; 1/9 ¼lb.; 5/- lb.

Yates' Turnip Rooted (Selected Early Flat Egyptian)—Yates Derwent Globe (Improved Crimson Globe)—Spinach Beet. Each Pkt., 6d.; 1/- oz.; 1/6 ¼lb.; 4/- lb.

CABBAGE.

The present is the most important time for planting Cabbages, and we recommend a selection from the list of varieties mentioned below: Yates' First Early Improved, Yates' Earliball, and Yates' Utility are all small early Cabbages which are the best for home growing; the first is of the conical hearted type, while the latter two are of the round type. For the main crop, Peter Henderson's Own Grown Stock of Succession and Yates' Derwent Re-selected Strain of Early Drumhead are pre-eminent.

Yates' Earliball. Pkt., 6d.; 3/- oz.; 10/- ¼lb.; 35/- lb.

Yates' Utility—Yates' First Early Improved—Yates' Early Drumhead Derwent Re-selected. Each Pkt., 6d.; 3/- oz.; 10/- ¼lb.; 35/- lb.

Succession, Peter Henderson's Own Stock.

Pkt., 6d.; 5/- oz.; 15/- ¼lb.; 45/- lb.

Burpee's Allhead. Pkt., 6d.; 2/- oz.; 6/6 ¼lb.; 20/- lb.

CARROTS

Except in very cold districts, Carrots may still be sown. We particularly recommend that they be grown quickly and used while still young and tender. Early Horn has a short root and is suitable for the home garden, especially where the sub-soil is heavy and is close to the surface.

Early Horn—Oxheart (Guerande)—Manchester Table.

Each Pkt., 6d.; 1/- oz.; 1/9 ¼lb.; 5/- lb.

CAULIFLOWER

The Cauliflower is, in some seasons, a difficult crop to grow, and those who are consistently successful with them can justly claim the possession of good gardening ability. With the introduction of the two famous Yates' strains, Phenomenal Early and Phenomenal Maincrop, the Cauliflower is becoming an increasingly popular crop among amateur growers. The most important item in growing Cauliflowers is to keep the plants in full and continuous growth, never allowing them to be checked.

Yates' Phenomenal Early (4-5 months) — Yates' Phenomenal Maincrop (6-7 months)—Yates' Metropole (about 8 months). Each Pkt., 6d.; 5/- oz.; 15/- ¼lb.; 45/- lb.

YATES' PHENOMENAL CAULIFLOWER

ALL VEGETABLE SEEDS ARE POST FREE.

LETTUCE

A continuous supply of this and other salad vegetables is very necessary, for health reasons, particularly in our climate. Sow at any time, provided you have rich ground and a plentiful supply of water to grow them quickly. The following are representative of both the Crisp Curled Type of lettuce and the Butterhead Type.

Yates' Champion Cabbage (Crisp Curled)—Yates' American Summer (Crisp Curled)—Yates' Long Standing (Butterhead)—Neapolitan (Crisp Curled)—Mignonette (Crisp Curled)—All-the-Year-Round (Butterhead).
Each Pkt., 6d.; 1/3 oz.; 4/- ½lb.; 12/6 lb.

ONION.

In warm northern districts early sowings may be made in February of early varieties, as mentioned below. The white varieties are very much favoured for home growing. They should be sown direct in the rows where they are to grow and thinned out to four or five inches apart.

Yates' Hunter River Early Brown Spanish. Pkt., 6d.; 4/6 oz.; 12/6 ½lb.; 37/6 lb.

Early Barletta (White Silverskin)—Silver King (White)—White Italian Tripoli.
Each Pkt., 6d.; 1/3 oz.; 3/3 ½lb.; 10/- lb.

PEAS

In all but cold districts it is safe to make further sowings. Any of the following varieties are recommended:—

Yates' Earlicrop. Post Paid. Prices, Pkt., 9d.; 2/6 lb.

English Wonder (American Wonder Improved)—Richard Seddon.
Post Paid Prices, Pkt., 9d.; 1/9 lb.

Witham Wonder—Greenfeast—Yorkshire Hero.
Post Paid Prices, Pkt., 9d.; 1/6 lb.

RADISH

No vegetable garden is complete without a continuous supply of succulent young Radish. Sow at intervals of three weeks right into early winter. Any of the following varieties are suggested—they are all proved-good sorts.

Long Scarlet—French Breakfast—Mixed Turnip.
Each Pkt., 6d.; 1/3 ½lb.; 3/6 lb.

TURNIPS AND SWEDES

These vegetables are so easily grown that no garden should be without a row for a regular supply. Sow thinly direct in the rows where they are to grow and thin out to about four inches apart when they are up. For the best eating they should be used while young and tender.

White Stone Turnip — Purple Top Munich Turnip.

Each Pkt., 6d.; 1/3 ½lb.; 3/6 lb.
Yates' Champion Purple Top Swede.

Pkt., 6d.; 1/- ½lb.; 2/9 lb.

Yates' Monarch Swede.

Pkt., 6d.; 1/- ½lb.; 2/6 lb.

All-The-Year-Round Lettuce, which is one of the best of the Butterhead type.

YATES' CHOICE SWEET PEAS

The Most Popular Varieties

Of the World-Famous Australian Early-Flowering Strain

We have many other varieties besides the following. The full list will be published in Yates' Annual, available early in March.

FOR Australian gardens there are few flowers that can give so much pleasure and provide such a bountiful return of fragrant bloom as the Australian Early Flowering Sweet Peas. Each year we conduct extensive trials of all the best varieties, including novelties, offered by ourselves and other raisers, and we have no hesitation in saying that the following list contains the very cream of present-day varieties.

CULTURAL NOTES—The secret of success for Sweet Pea growing is thorough preparation of the bed before sowing. Any free, open, well-drained soil will suit Sweet Peas, but it is necessary that the roots should be able to go well down, so the land should be trenched to at least two feet, several weeks (if possible) before planting time. Where available a good dressing of cow or stable manure should be worked into the soil right at the bottom of the trench, bone-dust and wood ashes being also added. In addition, or where the above are not obtainable, Yates' Sweet Pea Manure should be used. This is a complete fertilizer and gives excellent results. One pound is sufficient for 6 square yards or a row of 36 feet. Air-slaked lime also is very beneficial to Sweet Peas, and a surface dressing while the plants are growing serves to keep them free from disease, as well as discouraging slugs and snails.

Those who are keen to obtain the best results should write for our special booklet "The Cultivation of Sweet Peas," which contains very complete directions both for ordinary and exhibition growing.

"Fours"—This term indicates that four flowers are borne on a single stem instead of the usual three.

SEVEN NEW VARIETIES

These are just on the market and have not yet been tested by us, so we offer them under the descriptions furnished by the raisers, who are growers of world-wide repute.

EARLY MARINE—An exceptionally clear blue of the largest size which the raiser believes will supersede all others. The plants are very vigorous, and produce an abundance of blooms on large, strong stems. Pkt., 2/-

EARLY BELLE—The color of this fine introduction is clear rose pink on deep cream ground. The flowers are large, well formed and carried on vigorous stems. Pkt., 2/-

EARLY ALAMEDA—The color is a deep rose pink touched with cerise on a white ground. This variety is particularly effective under artificial light, and should be very popular for florist work. Pkt., 2/-

EARLY ORIENTAL—A new black-seeded cream variety, claimed to be the deepest in this section. The vines and stems are very vigorous and the number of four-flower sprays is exceptionally large, while many of the flowers have double standards. Pkt., 2/-

EARLY SUNRAY—An outstanding new variety of a glowing soft cerise shade on cream ground, which is magnificent under artificial light. The stems are phenomenally long and stout and carry a number of "fours" and double standard blooms. Pkt., 2/-

BLUE BONNET—Another fine introduction to the deep blue section, showing no trace of mauve. The habit is vigorous, and it carries a large number of "fours." Pkt., 2/-

VALENCIA—A new orange Sweet Pea with vigorous habit and strong stem, qualities which have so far not been obtained in these delicately colored varieties. In addition it is claimed to be resistant to burning, and throws many three and four-flower sprays. Pkt., 2/-

Mr. C. R.—, Serpentine, Qld., writes as follows of Yates' Early Flowering Sweet Peas:—

"My early flowering sweet peas are starting to flower with stems nearly a foot long, and the plants are over 5ft. high already. They are the finest sweet peas I have seen yet. I sowed some of my own seed saved from my peas last year and they are not 2ft. high yet, though sown at the same time."

ALL FLOWER SEEDS ARE POST FREE.

SELECTED EARLY FLOWERING SWEET PEAS

Snowbird—Large well-waved flowers on long stems.

Pkt., 6d.; $\frac{1}{4}$ oz., 1/6; $\frac{1}{2}$ oz., 2/-; oz., 4/-

White Elfin (Black Seeded)—Large and free flowering. Seed has much more vitality than the White Seeded varieties.

Pkt., 6d.; $\frac{1}{4}$ oz., 1/6; $\frac{1}{2}$ oz., 2/-; oz., 4/-

Cream Elfin (Black Seeded)—A strong germinating cream producing many "fours."

Pkt., 6d.; $\frac{1}{4}$ oz., 1/6; $\frac{1}{2}$ oz., 2/-; oz., 4/-

Daybreak (Field Daisy)—Creamy white with rose pink edgings; produces more "fours" than most other varieties.

Pkt., 6d.; $\frac{1}{4}$ oz., 1/6; $\frac{1}{2}$ oz., 2/-; oz., 4/-

Pale Violet Flush—A very enchanting shade of colour, deepest at the edges.

Pkt., 6d.; $\frac{1}{4}$ oz., 1/6; $\frac{1}{2}$ oz., 2/-; oz., 4/-

Marie Cheslyn—Apricot on cream ground.

Pkt., 6d.; $\frac{1}{4}$ oz., 1/6; $\frac{1}{2}$ oz., 2/-; oz., 4/-

Mrs. May Hasset—Deep pink on cream ground—a great favourite.

Pkt., 6d.; $\frac{1}{4}$ oz., 1/6; $\frac{1}{2}$ oz., 2/-; oz., 4/-

Duplex Gem—The buds and young flowers are a beautiful cream pink, slightly deeper than Marie Cheslyn. In our trials, over 30% of the flowers have double (or Duplex) standards.

Pkt., 2/-; $\frac{1}{4}$ oz., 5/-; $\frac{1}{2}$ oz., 7/6; oz., 15/-

Duplex Pioneer—Similar in all respects to Duplex Gem, except that the pink color is deeper.

Pkt., 2/-; $\frac{1}{4}$ oz., 5/-; $\frac{1}{2}$ oz., 7/6; oz., 15/-

Countess—Light Blush Pink, deeper at edges.

Pkt., 6d.; $\frac{1}{4}$ oz., 1/6; $\frac{1}{2}$ oz., 2/-; oz., 4/-

Yarrowa—The original variety of Yates' Early Flowering Spencer Strain of Sweet Peas. Deep rose pink standard, blush pink wings.

Pkt., 6d.; $\frac{1}{4}$ oz., 1/6; $\frac{1}{2}$ oz., 2/-; oz., 4/-

Frilled Pink—Pure soft pink, very heavily frilled and producing many "double standards."

Pkt., 1/-; $\frac{1}{4}$ oz., 1/9; $\frac{1}{2}$ oz., 2/6; oz., 5/-

Emperor (A. J. Quarrell)—A rich crimson red of excellent type.

Pkt., 6d.; $\frac{1}{4}$ oz., 1/6; $\frac{1}{2}$ oz., 2/-; oz., 4/-

Monarch—An unusual ox-blood shade with good resistance to burning. The deepest red shade in our collection.

Pkt., 1/-; $\frac{1}{4}$ oz., 1/9; $\frac{1}{2}$ oz., 2/6; oz., 5/-

Grenadier—The finest true scarlet yet introduced; has little or no tendency to burn.

Pkt., 1/-; $\frac{1}{4}$ oz., 1/9; $\frac{1}{2}$ oz., 2/6; oz., 5/-

Superb—A bright rosy cerise throwing a large proportion of "Double Standard" blooms which are so strongly frilled and waved as to give the effect of "balls" of color.

Pkt., 6d.; $\frac{1}{4}$ oz., 1/6; $\frac{1}{2}$ oz., 2/-; oz., 4/-

Chevalier—A true uniform rose color showing no other tint.

Pkt., 6d.; $\frac{1}{4}$ oz., 1/6; $\frac{1}{2}$ oz., 2/-; oz., 4/-

Superior Pink—Only a recent introduction, this color has been sought after for many years. It is a rich bright pink between the deep pinks and the cerise types.

Pkt., 1/-; $\frac{1}{4}$ oz., 1/9; $\frac{1}{2}$ oz., 2/6; oz., 5/-

Red Indian—Deepest maroon with no sign of purple.

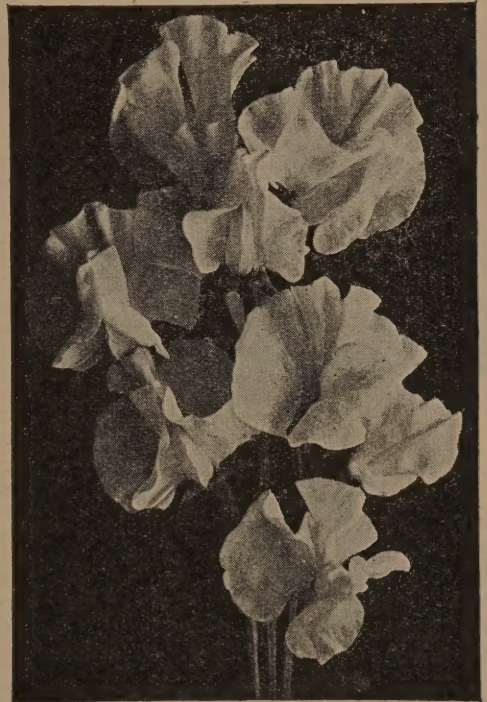

Pkt., 1/-; $\frac{1}{4}$ oz., 1/9; $\frac{1}{2}$ oz., 2/6; oz., 5/-

Chief—A rich deep maroon of fine massive form.

Pkt., 6d.; $\frac{1}{4}$ oz., 1/6; $\frac{1}{2}$ oz., 2/-; oz., 4/-

Laura—Beautiful dark purple maroon, almost as much admired as Chief.

Pkt., 6d.; $\frac{1}{4}$ oz., 1/6; $\frac{1}{2}$ oz., 2/-; oz., 4/-

Typical Spencer form of Yates' Strain of Early Flowering Sweet Peas.

Concord Purple—Mauvy purple changing as the flower ages to purple blue.

Pkt., 6d.; $\frac{1}{2}$ oz., 1/6; $\frac{1}{2}$ oz., 2/-; oz., 4/-

Queensland Beauty—Very pale blue and a magnificent beautifully frilled variety suitable for exhibition.

Pkt., 1/-; $\frac{1}{2}$ oz., 1/9; $\frac{1}{2}$ oz., 2/6; oz., 5/-

Blue Butterfly—Clear sky-blue—a most entrancing color.

Pkt., 6d.; $\frac{1}{2}$ oz., 1/6; $\frac{1}{2}$ oz., 2/-; oz., 4/-

Albury Lavender, Imp. (Azurea)—True lavender and a most popular variety.

Pkt., 1/-; $\frac{1}{2}$ oz., 1/9; $\frac{1}{2}$ oz., 2/6; oz., 5/-

Elfin Mauve Lavender—A distinct color producing many "fours" and lasts very well when cut.

Pkt., 6d.; $\frac{1}{2}$ oz., 1/6; $\frac{1}{2}$ oz., 2/-; oz., 4/-

Charm—The standard is white tinted very light heliotrope, while the wings are even lighter, being almost white.

Pkt., 6d.; $\frac{1}{2}$ oz., 1/6; $\frac{1}{2}$ oz., 2/-; oz., 4/-

Vulcan (Rawhiti)—A magnificent glowing orange scarlet, very resistant to burning and much sought after by florists.

Pkt., 1/-; $\frac{1}{2}$ oz., 1/9; $\frac{1}{2}$ oz., 2/6; oz., 5/-

For Complete List of Varieties, see Yates' Annual, available about March.

Bright Light—An interesting new shade between Vulcan and Orange King.

Pkt., 1/-; $\frac{1}{2}$ oz., 1/9; $\frac{1}{2}$ oz., 2/6; oz., 5/-

Glitters—A magnificent and very popular variety; rich reddish orange and does not burn easily.

Pkt., 6d.; $\frac{1}{2}$ oz., 1/6; $\frac{1}{2}$ oz., 2/-; oz., 4/-

Gleam—A fine variety best described as a lighter shade of Glitters.

Pkt., 1/-; $\frac{1}{2}$ oz., 2/6; $\frac{1}{2}$ oz., 3/6; oz., 7/-

Albury Beauty—An enchanting soft salmon shade—one of the best.

Pkt., 6d.; $\frac{1}{2}$ oz., 1/6; $\frac{1}{2}$ oz., 2/-; oz., 4/-

Donald J. Coghill—White ground flaked with rosy salmon.

Pkt., 6d.; $\frac{1}{2}$ oz., 1/6; $\frac{1}{2}$ oz., 2/-; oz., 4/-

Grey Flakes—Rich chocolate flakes on a slate-blue ground.

Pkt., 6d.; $\frac{1}{2}$ oz., 1/6; $\frac{1}{2}$ oz., 2/-; oz., 4/-

Columbine—White ground heavily flaked with crimson—one of the best.

Pkt., 6d.; $\frac{1}{2}$ oz., 1/6; $\frac{1}{2}$ oz., 2/-; oz., 4/-

Yates' Sweet Peas on the show bench in Hong Kong, China.

SELECTED COLOURS IN MIXTURES

YATES' PRIZE PACKET, 5/-

Sufficient to plant about 45 feet of row. This packet is made up for gardeners who, having limited space, wish to plant a few Peas and have all the best. It contains approximately 150 seeds of the best twenty varieties in our collection.

YATES' FIRST CHOICE SPENCERS (MIXED COLORS)

Contains a large selection of the fine varieties offered in our list of "The Best 50." The range of color is endless, almost all colors in Sweet Peas being represented. Each pkt. (about 200 seeds), 2/6; Small pkt. (about 75 seeds), 1/-; per oz., 3/-

MIXED HYBRIDS. A good strain of Mixed Sweet Peas. Pkt., 6d.; $\frac{1}{2}$ oz., 1/3; oz., 2/6

MIXED EARLY FLOWERING—Pkt., 3d.

ALL FLOWER SEEDS ARE POST FREE.

IN COLLECTIONS

Those, who prefer to grow Sweet Peas in masses of separate colors, would do well to take advantage of one or other of these special offers. They not only contain much greater value, but include a well-balanced range of colors each in separate named packets.

YATES' SPECIAL "BEST TWELVE FOR 1930 COLLECTION"

6/6 Post Free. (See colored plate on back cover.)

With the extensive trials of Sweet Peas which we carry out each year, we are able to make very close and accurate comparisons between the varieties, and we publish below what we ourselves think to be the "pick of the bunch." This collection contains one full-sized packet of each of the following varieties and carries our highest recommendation.

White Elfin (Black Seeded)—White
Daybreak—Cream with pink picotee
Frilled Pink—Soft pink
Superior Pink—Bright pink
Chevalier—Rose red
Monarch—Deepest crimson
Glitters—Reddish orange

Bright Light—Orange Scarlet
Albury Lavender (Imp.)—Lavender
Blue Butterfly—Sky blue
Red Indian—Deepest maroon
Donald J. Coghill—White, flaked rosy salmon.

YATES' "CHAMPION" COLLECTION, 20/- Post Free.

Contains extra special value (about £1/7/6 worth at Catalogue rates) and includes a majority of the leading sorts, also a large packet of the world famed Yarrawa.

YATES' "STAR" COLLECTION, 12/6 Post Free

This name is made up of thirty choice varieties selected by us, including many prize winning sorts and also a large packet of Yarrawa.

YATES' "CROWN" COLLECTION

We do not now offer this collection, as it has been superseded by the "Best Twelve for 1930 Collection." (See above.)

ADDRESS ALL MAIL: BOX 2707-C, SYDNEY.

PANSIES

GIANT EXHIBITION AND GARDEN STRAINS

In Pansies, as with other lines, we are continually testing and comparing varieties, and we believe that our Giant Exhibition and Garden Strains are unexcelled for size, colourings and markings, and are equal to the best and most highly bred that can be obtained anywhere in the world.

YATES' GIANT PANSIES

SPECIAL COLLECTION OFFER

This consists of four of our most distinct varieties and carries our recommendation. For description of varieties, see below:—

1 packet Yates' Champion Fancy	3/6	} 5/-
1 packet Yates' Ruffled Masterpiece	1/-	
1 packet Yates' Large Flowered Blotched,	1/-	
1 packet Cassier's Fine Mixed	6d.	

YATES' SPECIAL EXHIBITION (See colored plate facing Page 1)—This is probably the best strain of Exhibition Pansies grown; the blooms are very large, of excellent form and substance, and show beautiful markings and full, rich colours. Like most extra choice flower seeds, this strain requires special care to raise successfully. Pkt., 5/-; 1/64-oz., 10/6; 1/32-oz., 16/-.

YATES' CHAMPION FANCY (See colored plate facing Page 1)—A truly magnificent strain of Giant Fancy Pansies. The colourings and markings are remarkable for their diversity of striking shades, while the substance and size of the

blooms eclipse any other variety we have seen. A worthy companion to the above and especially so as a garden variety. Pkt., 3/6; 1/64-oz., 5/-; 1/32-oz., 9/-; 1/16-oz., 14/-.

YATES' SUPERB GIANT MIXED—A very excellent strain of Giant, Show and Exhibition Pansies. The flowers are large, brilliantly marked, and of a great variety of coloring.

Pkt., 2/6; 1/32-oz., 5/-; 1/16-oz., 7/6.

YATES' LARGE FLOWERED BLOTCHED—A choice strain of blotched Pansies; the color is rich and varied and the flowers are of fair size and good substance.

Pkt., 1/-; 1/32-oz., 2/6; 1/16-oz., 3/9

YATES' RUFFLED MASTERPIECE—The petals are frilled, flowers are of good size and stand up well; a good range of colors and mixture.

Pkt., 1/-; 1/16oz., 2/3; 1/8oz., 3/3.

CASSIER'S FINE MIXED—A fine strain of Blotched Pansies, of great richness and good variety.

Pkt., 6d.; 1/32-oz., 1/9; 1/16-oz., 2/9.

TRIMARDEAU MIXED—These are good hardy Pansies, giving a large variation of colors, and are early bloomers.

Pkt., 6d.; 1/32-oz., 1/6; 1/16-oz., 2/-.

GOOD MIXED—Contains a good assortment of hardy varieties which are easily raised and bloom freely over a long period.

Pkt., 3d.; 1/32-oz., 1/3; 1/16-oz., 1/9; 1/8-oz., 2/6.

Types of Yates' Champion Fancy Strain.

CHOICE FLOWER SEEDS

ANEMONES

A well-grown bed of Anemone will bring joy to the heart of any gardener. Yates' Prize Strain of St. Brigid is a distinct strain containing the most brilliant and striking colors, while most of the flowers are semi-double. In the single type, which many consider to be the best for cutting, we offer Single Mixed (Beauty of Caen).

St. Brigid, Yates' Prize Strain. Pkt., 1/-; Small Pkt., 6d.; 1/16oz., 2/-; 3/8oz., 3/-; 1/2oz., 4/6
Single Mixed (Beauty of Caen). Pkt., 6d.; 1/2oz., 1/6

CARNATIONS.

We wish to draw the attention of the many admirers of Carnations to a very fine strain in the Giant or Bedding type which we have recently introduced, viz., Yates' Giant Bedding. This strain has an exceptionally fine range of color and an unusually high percentage of doubles, while the flowers are very strongly clove scented.

Yates' Giant Bedding. Pkt., 1/-; 1/16oz., 4/-; 3/8oz., 5/9

CINERARIAS

Cinerarias do splendidly in the open in climates such as Sydney, provided they are sheltered from strong winds and too much sun. The strain offered below has been carefully selected for broadness of petal and variety of color, all inferior types being rigidly eliminated.

Yates' Large Flowered Branching.

Pkt., 2/6; Small pkt., 1/6; 1/32oz., 5/-; 1/16oz., 7/6;
3/8oz., 11/3

CLARKIAS

With the introduction of the new double type, these very charming annuals are each year becoming more popular. The flowers are formed in crinkly rosettes on the long stems in the manner of Peach blossoms and, for this reason, are very suitable for indoor decoration. They should be grown in a sheltered situation and well staked to prevent damage from wind.

Choice Mixed Double Clarkia. Pkt., 6d.; 1/2oz., 1/3

DELPHINIUMS

Of all the blue flowers, Delphiniums seem to give the most wonderful range of shades from palest blue and mauve to deep blue and violet. These stately plants can be grown in all moderate climates, and, although they are perennials, in warm districts fresh seedlings should be raised each season to maintain their vigor. Yates' Extra Select Perennial Hybrids are saved from a specially fine collection of all the best colors on our Tasmanian Seed Farm. The Belladonna type is a beautiful pale blue, much prized by florists, while the Blue Butterfly (Chinese Delphinium) is a distinct variety with fine, feathery foliage and loose flower spikes which last a long while when cut. The plants only grow to a height of about 2½ feet and bloom throughout the summer.

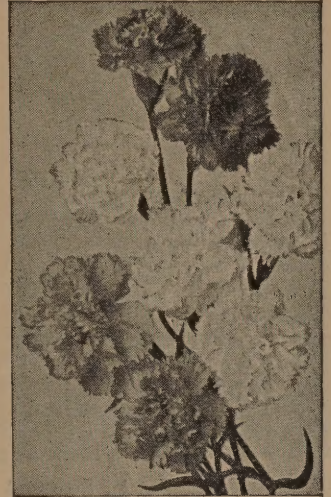

Yates' Extra Select Perennial Hybrids.

Pkt., 6d.; Large Pkt., 1/-; 1/16oz., 1/6; 3/8oz., 2/-; 1/2oz., 3/-

Belladonna. Pkt., 1/-; 1/16oz., 3/9; 3/8oz., 5/6

Blue Butterfly. In separate colours—Gentian (dark) Blue, Azure, Blue, White.

Each Pkt. 6d.; 1/16oz., 1/3; 3/8oz., 1/9; 1/2oz., 2/6

Yates' Giant Bedding
Carnations.

Cinerarias do excellently in pots

AQUILEGIAS (Columbines)

A beautiful hardy perennial which should find a place in every garden, especially in the cooler districts. The fairy-like flowers last well when picked and are of the most delicate shades of color. We offer Yates' "Derwent" Long-spurred Strain which is specially selected on our Tasmanian Seed Farm Yates' "Derwent" Long-spurred.

Pkt., 1/-; Small Pkt., 6d.; 1/32oz., 2/9; 1/16oz., 4/-; 1/8oz., 5/9

LARKSPURS. (See colour plate on inside of back cover.)

Larkspurs have recently received a good deal of attention from plant breeders and, as a result, some delightful new colors are becoming available in the Tall Branching Stock-Flowered section. From recent tests we believe the following to be the best. In the blue colors, Sky Blue, Amethyst Blue, Dark Blue, running from light to dark in that order, and in the pink shades La France (a soft light pink), and Lustrous Carmine (a rich pink). We offer the above colors separately and also in mixture with other colors.

Tall Branching Stock Flowered Larkspurs.

Sky Blue. Pkt., 6d.; 1/8oz., 1/-
 Amethyst Blue. Pkt., 6d.; 1/8oz., 2/-
 Dark Blue. Pkt., 6d.; 1/8oz., 1/-
 La France. Pkt., 1/-; 1/8oz., 2/6; 1/4oz., 3/9
 Lustrous Carmine. Pkt., 6d.; 1/8oz., 1/-
 Tall Choice Mixed. Pkt., 6d.; Small Pkt., 3d.; 1/8oz., 1/6

LUPINS

Of recent years some very pretty new types have become available and this has stimulated great interest in them. Pink Pearl and Blue Gem are the two old favourites, having a strong pleasing perfume. In the not-so-well-known Hartwigii types, H. Coelestinus is a particularly charming shade of pale blue, having a white eye. There is also H. Blue (darker) and H. Albus (a white). We offer the Pink Pearl and Blue Gem mixed as Tall Large Seeded Varieties and the Hartwigii Type mixed as Tall Small Seeded Varieties.

Pink Pearl. Pkt., 6d.; 1/8oz., 1/-
 Blue Gem. Pkt., 6d.; 1/8oz., 1/-
 Tall Large-seeded Varieties Mixed
 Pkt., 6d.; Small Pkt., 3d.; 1/8oz., 1/-
 Hartwigii Albus. Pkt., 6d.; 1/8oz., 1/3
 " Blue. Pkt., 6d.; 1/8oz., 1/3
 " Coelestinus. Pkt., 6d.; 1/8oz., 1/3
 Tall Small-seeded Varieties Mixed.
 Pkt., 6d.; 1/8oz., 1/-

Aquilegias (Columbines).

ICELAND POPPIES

There will be few readers of this booklet who do not wish to have some Iceland Poppies somewhere in their garden. In our opinion the amateur gardener should concentrate his attention on some of the delightful pink shades now available, and we suggest Yates' Rose Tints Re-selected, a very high quality selection of all the most delicate pink, rose and carmine tints. In the tangerine type we recommend the Sunbeam Strain, as it gives larger and more robust plants and blooms, and longer stems; this strain takes two to three weeks longer to come into flower.

ICELAND POPPIES—Continued.

Yates' Rose Tints Re-selected. Pkt., 1/6; 1/32oz., 2/9; 1/16oz., 4/-; ½oz., 6/-
 Yates' Sunset Hybrids Re-selected. Pkt., 1/-; 1/32oz., 2/6; 1/16oz., 3/6; ½oz., 5/-
 Coonara Pinks. Pkt., 1/-; 1/32oz., 2/9; 1/16oz., 4/-; ½oz., 6/-
 Sunbeams. Pkt., 6d.; 1/16oz., 1/3; ½oz., 1/9

RANUNCULUS

This is another delightfully decorative flower both for the garden and for the house; the cut blooms will last many days, while a bed makes a dazzling sight in sunlight. Raised now in the early autumn and the little bulblets transplanted into their permanent positions in the late autumn, Ranunculus will make a magnificent show in the spring. Yates' Superb Mixed Asiaticus Strain contains single, semi-double and double flowers, while the colors vary through yellow and tints of orange, salmon pink and scarlet into crimson. Camellia Flowered is a newly-introduced type of great merit, producing very large flowers and having an excellent range of color.

Asiaticus Yates' Superb Mixed. Pkt., 6d.; Large Pkt., 1/-; ½oz., 2/-
 Camellia Flowered. Pkt., 2/-; ½oz., 5/6

STOCKS

We have paid very special attention to early flowering Stocks in our testing grounds, and we believe that the great popularity they enjoy with gardeners throughout the Commonwealth is, in a measure, due to the success of the famous Yates' Giant Perfection Strain. Our Choice Mixed Giant Perfection will be found to contain all the most desirable colors; where, however, there is room, we strongly recommend using some of the separate colors, such as Sapphire, Heatham Beauty, Rose, for massing in beds by themselves.

Yates' Giant Perfection Choice Mixed.

Pkt., 6d.; Large Pkt., 1/-; 1/32oz., 2/-; 1/16oz. 2/9; ½oz., 4/-

Separate Colors: Blood Red, La France (blush pink), Fiery Scarlet, Sapphire, May Queen (pale blue), Heatham Beauty (vieux rose), Empress Augustus Victoria (silvery lilac), Canary Bird (creamy yellow), Rose (rich pink deepening to rose), Snowdrift (pure white), Violet Slate (slaty mauve), Queen of the Belgians (pale mauve).

Each Pkt., 6d.; Large Pkt., 1/-; 1/32oz., 2/3; 1/16oz., 3/3; ½oz., 4/9

NEMESIA

You must find room in the garden for the improved strains now offering. Nemesis comes from South Africa and does splendidly in climates such as Sydney's. The Large Flowered Strumosa Mixed Type is the best known, but the following two Dwarf Types are being much more widely used as their merits are realised—Grandiflora Compacta and Blue Gem (Compacta). The latter is a particularly delightful variety, producing masses of flowers of a delicate shade of blue.

L-rge Flowered Strumosa Mixed. Pkt., 6d.; ½oz., 3/-

Grandiflora Compacta. Pkt., 6d.; 1/16oz., 3/-

Blue Gem (Compacta). Pkt., 6d.; 1/16oz., 3/6

VIOLA.

The Viola Cornuta or Horned Pansy is a wonderful bedding plant which has come very much to the fore the last few years. It is unequalled among the Pansy family for freedom of flowering and length of blooming season even after the hot weather commences. When planting out, space them 4-6 inches apart, and they will then make an unbroken carpet of bloom in the flowering season. Selection should be made from the following, according to the color desired:—

Papilio (lavender flushed white), Papilio Deep Violet, Lutea Splendens, White Perfection.

Each Pkt., 6d.; Large Pkt., 1/-; ½oz., 2/6; ½oz., 3/6

GLADIOLI

SPECIAL ARRANGEMENT FOR EARLY AUTUMN SUPPLIES.

We are pleased to announce that we are able to offer now for immediate planting the following list of fine up-to-date varieties.

As Gladioli do so well in the warm and temperate parts of Australia when planted in the early autumn, we have made special arrangements to have supplies of the following selected sorts for present planting. We will not, however, be able to supply all of them throughout the year.

For list of varieties available for winter and spring planting, see Yates' Annual, 1930, available about March.

SPECIAL OFFERS IN COLLECTIONS

For those not acquainted with the various sorts or who wish to take advantage of the greater value, we can give in this manner:—

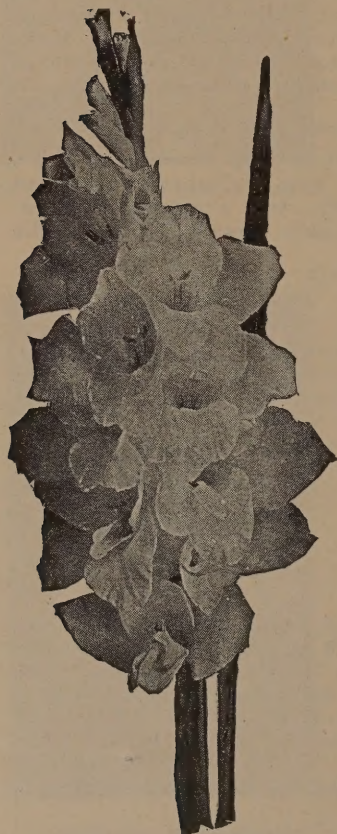

12 Bulbs of 1/- varieties **Our Selection**, 10/- post free.

12 Bulbs of 1/- varieties **Your Choice**, 11/- postage 9d.

List of Varieties

Postage extra 9d. per dozen.

Types of the following Gladioli are illustrated on front cover in color.

ALICE TIPLADY (Primulinus)—Flowers are a most beautiful orange saffron with tall graceful spikes. 1/-.

BUCKEYE—Rose pink with deeper throat. 1/6.

DAVID STARR JORDON—Immense scarlet flame-colored flower with cream mottle on lip. 1/6.

E. J. SHAYLOR—A truly beautiful rose pink, nicely ruffled. 1/-.

ELF—Large pure white with lemon lip. 1/-.

EVELYN KIRTLAND—Coral pink flowers carried on tall stems. An easy grower. 1/-.

GRETCHEN ZANG—Soft salmon rose with scarlet throat. 1/-.

JACK LONDON—Orange-salmon striped vermilion, canary throat with ruby stripes. 1/-.

LE MARECHAL FOCH—Pure rose pink flowers of immense size. Very early. 1/-.

JOE COLEMAN—Bright crimson with lighter centre; attractively ruffled. 1/-.

LOS ANGELES—Shrimp pink; a favourite variety owing to its soft coloring. 1/6.

MAIDEN'S BLUSH (Primulinus)—Lovely pink with salmon shades. Tall and slender. 1/-.

MARY PICKFORD—Cream, with throat a soft lemon yellow. A vigorous grower, often sending two stalks to a bulb. 1/-.

MYRTLE—A beautiful rose pink, with a light centre. 1/-.

1910 ROSE—Deep rose. A very attractive variety. 1/6.

RED CANNA—Blood red flowers produced on long stems. 1/6.

ROSE ASH—Peculiar soft, old-rose tones, fading to ashes of roses on the outer edges of petals. Very unique in coloring and greatly admired. Excellent for cutting. 1/-.

(Continued next page)

For regular list of varieties available throughout the season, see Yates' Annual Catalogue.

CHOICE FLOWERING BULBS

GLADIOLI—Continued.

SCHWABEN—Soft pure yellow, with little red feather markings in the throat. 1/-

Mrs. F. PENDLETON—Light salmon pink with blood red blotches on lower petals. 1/-

VIRGINIA—Brilliant scarlet. Vigorous grower with erect stalks. Splendid for cutting and will give a grand mass of color when grown in beds. 1/-

HINTS ON THE CULTURE OF GLADIOLI.

Any good rich soil will suit Gladioli, but it must not contain freshly added manure. They prefer an open situation in full sunlight and, if possible, it should be sheltered from westerly winds.

The soil should be made nicely moist, and the corms then planted 4 inches below the surface. Unless the soil becomes very dry, no more watering will be required until the shoots are well above the surface. From then on, however, the soil should never be permitted to become really dry. As soon as the flower spikes begin to form they should be supported by loosely tying them to stakes. Flowers should be picked in the early morning, after the first few have opened. As the bottom flowers fade they should be removed.

DAFFODILS (Narcissus)

A Selection of the Best Varieties—For complete list, including all popular classes, see Yates' Annual, available about March.

These old favourites share with the Gladioli the honour of being the most beautiful of bulbous plants. They grow to perfection in the cooler districts, but are also very successfully grown in the warmer parts, provided a cool and partially shaded situation is chosen. They grow very well in pots, and even in undrained bowls if a special compost is used. For full cultural directions, see Yates' Garden Guide, 1/- post free. Daffodils, as is the case with most other bulbous plants, have a strong dislike for fresh animal or ammoniated manures and will quickly rot away if it is present in the soil.

NOTES ON CLASSIFICATIONS.

Trumpet Daffodils—Those in which the trumpet is as long or longer than the perianth (petals). In this class are the Yellow Trumpets, Bicolor Trumpets (Yellow Trumpets with white perianth) and White Trumpets.

Cupped Daffodils—Include all varieties in which the "cup" (or Trumpet) is less than half the length of the perianth (petals). The sub-sections of this classification are *Incomparabilis*, *Barri*, *Jonquilla* (the true Jonquils) and *Leedsii*.

Small Crowned Daffodils—These have flat disc-like crowns and are represented by the *Poeticus* Section.

Bunch Flowered Daffodils (popularly, though wrongly, called *Jonquils*)—These bear two, three, and up to a dozen or more flowers on one spike. The *Polyanthus* and *Poetaz* sections come in this class.

SPECIAL OFFERS.—For those who do not wish to pick their own varieties, we make up special 5/-, 10/- and 20/- Daffodil Collections. These are extra good value and contain a fine assortment of varieties.

All Daffodil Bulbs are post free.

ADDRESS ALL MAIL: BOX 2707-C, SYDNEY.

DAFFODILS—Continued.

YELLOW TRUMPETS.

- King Alfred**—The best of all medium-priced Daffodils, large grand open trumpet with deeply-frilled mouth of great substance, and a good doer. 1/6 each, 15/- dozen, 90/- 100.
- Emperor**—Rich yellow trumpet, deep primrose perianth, one of the best. 4d. each, 3/- dozen, 20/- 100.
- Golden Bell**—Rich deep yellow trumpet, serrated edge, pale perianth. 9d. each, 7/6 dozen.
- Golden Spur**—Yellow throughout, hardy variety. 3d. each, 2/6 dozen.
- Goldfinch**—Deep golden self color trumpet. 4d. each, 3/6 dozen.
- M. J. Berkley**—Good clear yellow, well expanded trumpet. 6d. each, 5/- dozen.

WHITE TRUMPETS.

- Madame De Graaf**—Pure white trumpet of good size, form and substance. 2/- each.
- Wm. Goldring**—White perianth, primrose trumpet, drooping flowers. 4d. each, 3/- dozen.

BI-COLOR TRUMPET.

- Empress**—Rich yellow trumpet with creamy white perianth. (Supplies short.) 6d. each, 5/- dozen.
- Mrs. Walter Ware**—Snow-white perianth, golden trumpet, frilled. 4d. each, 3/6 dozen.
- Princes**—Pale lemon perianth, slightly darker trumpet. 3d. each, 1/6 dozen, 10/- 100.

INCOMPARABILIS.

- Autocrat**—Yellow perianth and cup, very attractive. 3d. each, 2/6 dozen.
- Commander**—Sulphur Perianth, bright yellow cup, stained orange. 4d. each, 3/6 dozen.
- Sir Watkin**—A giant cupped sort, sulphur perianth, orange yellow cup. 4d. each, 3/6 dozen, 25/- 100.
- Stella**—White perianth, yellow cup. 2d. each, 1/6 dozen, 10/- 100.

This illustration shows the variety of types available in Daffodils.—See "Notes on Classifications" on page 13.

BARRI.

Conspicuous—Light yellow spreading perianth, orange scarlet cup, deep edge. 3d. each, 2/6 dozen, 15/- 100.

Firebrand—Cream white perianth, fiery fluted cup. 1/- each.

JONQUILLA

Campernelle—Rich yellow cup and perianth, very fragrant. 3d. each, 1/6 dozen.

LEEDSI

White Lady—Broad white perianth, pale canary cup. 9d. each, 7/6 doz.

POETICUS.

Ornatus—White perianth, small flat cup with scarlet edge. 3d. each, 2/- dozen.

CHOICE FLOWERING BULBS

NOTE—The list of bulbs offered herein comprises only a few of the most popular sorts picked from our general list published in Yates' Annual.

ANEMONE—As the habit of growth and flowering period of the Anemone are very like those of the Ranunculus, these two are generally grown together, and the combination of color and form, when massed, is very effective. Garden lovers would be well advised to make provision for a bed of these beautiful Spring bloomers. Our bulbs are all Australian grown.

Yates' Prize Strain of St. Brigid. Contains a very high percentage of double varieties in all the most brilliant colours. 2/- doz.; 12/- per 100, post free.

Singles. Preferred by some for cutting. Mixed scarlet, purple and blue shades. 1/6 doz.; 9/- per 100, post free.

RANUNCULUS ASIATICUS—These well-known spring flowering bulbs are most effective in ribbons, clumps or masses. A bed of Ranunculus makes a brilliant display in the spring time and by careful and continual selection we are able to offer a strain which we believe is unexcelled for beauty and variety of colour. Our bulbs are all Australian grown and thoroughly acclimatized.

1/6 doz.; 10/- per hundred, post free.

TULIPS—In the cooler parts of the Continent and especially in the mountain districts the tulip grows to perfection, and the popularity of these beautiful plants has increased considerably since the wonderful display that was recently to be seen in the public gardens at Canberra.

We strongly recommend gardeners on the highlands and southern portions of the Continent to make provision for a bed. The bulbs are grown on our Tasmanian farm and are thoroughly acclimatized, thus avoiding the trouble and disappointment sometimes experienced with imported bulbs. They should be planted during February, March and April in a good light loam. Set the bulbs about 3 inches deep and do not lift them until the leaves have died off.

Choice Mixed. 5d. ea.; 4/6 doz.; 30/- per 100.

Named Varieties. (List on application) 6d. ea.; 5/- doz.

All post free.

HYACINTHS—During the last few years the popularity of the Hyacinth as a subject for pot culture has greatly increased on account of its delightful fragrance and adaptability to this method of cultivation. Growing in fancy bowls without drainage for table decoration is the most popular method, but necessitates the use of prepared fibre. We can supply this, but it becomes expensive if it has to be sent by parcel post. They will, however, thrive equally well in ordinary flower pots with light loamy soil and good drainage. Grown this way, they make delightful specimens for the table or bush house.

All the following are post free. The Single varieties are strongly recommended in preference to the Doubles.

(Continued next page)

Ranunculus Asiaticus

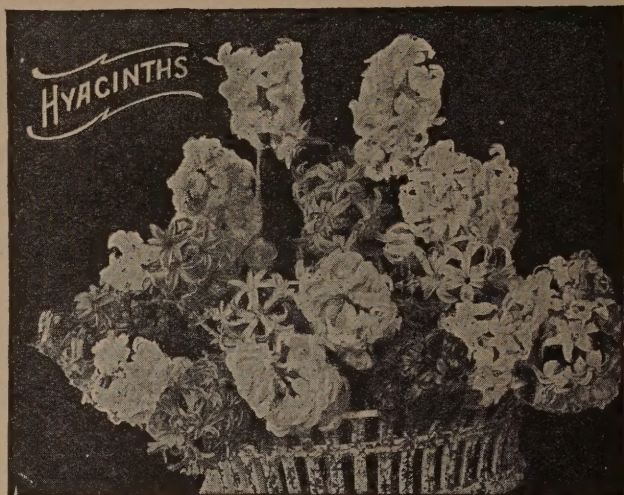

HYACINTHS—Continued.

Single — Selected bulbs in the following colors: Red, blue, white, pink, and yellow. 1/- each; 11/- doz.; 80/- per 100.

Single and Double—Mixed colors, for bedding and for massing. 9d. each; 7/6 dozen; 50/- per 100.

Double — White, red, blue or yellow. The flower spikes are hardly so beautiful as the singles. 1/- each; 11/- dozen.

WATSONIAS—Due to the work of the late J. Cronin, Curator of Melbourne Botanical Gardens, a wonderful new range of colours has been made available in these hardy bulbous plants. They are an outstanding improvement on the old pink and white sorts, and all keen amateurs will be anxious to introduce these new sorts into their gardens.

Watsonias—See special offering of new hybrids on this page.

They flower during spring and early summer and will thrive in almost any good soil, provided a sunny situation and occasional watering is given them. Postage 9d. per doz. extra.

The following six varieties are priced at 6d. ea.; 5/- doz.

Adelaide—Orange scarlet, rather dwarf, fairly early.

Sydney—Tall spikes, rich magenta.

Melbourne—Large, well-formed flowers of salmon pink.

Orangea—Dwarf habit, orange red flowers with blue anthers.

Peach Blow—Long spikes of peach blossom pink.

Clarendon Pearl—Beautiful frilled snow white blooms on tall spikes. An improved type of the O'Brieni Alba.

Maitland—Immense spikes in shades of crushed strawberry, rather late bloomer.

9d. each; 7/6 dozen.

SPECIAL OFFER OF 14 BULBS

Two each of all the above varieties for 7/-. Post and packing free.

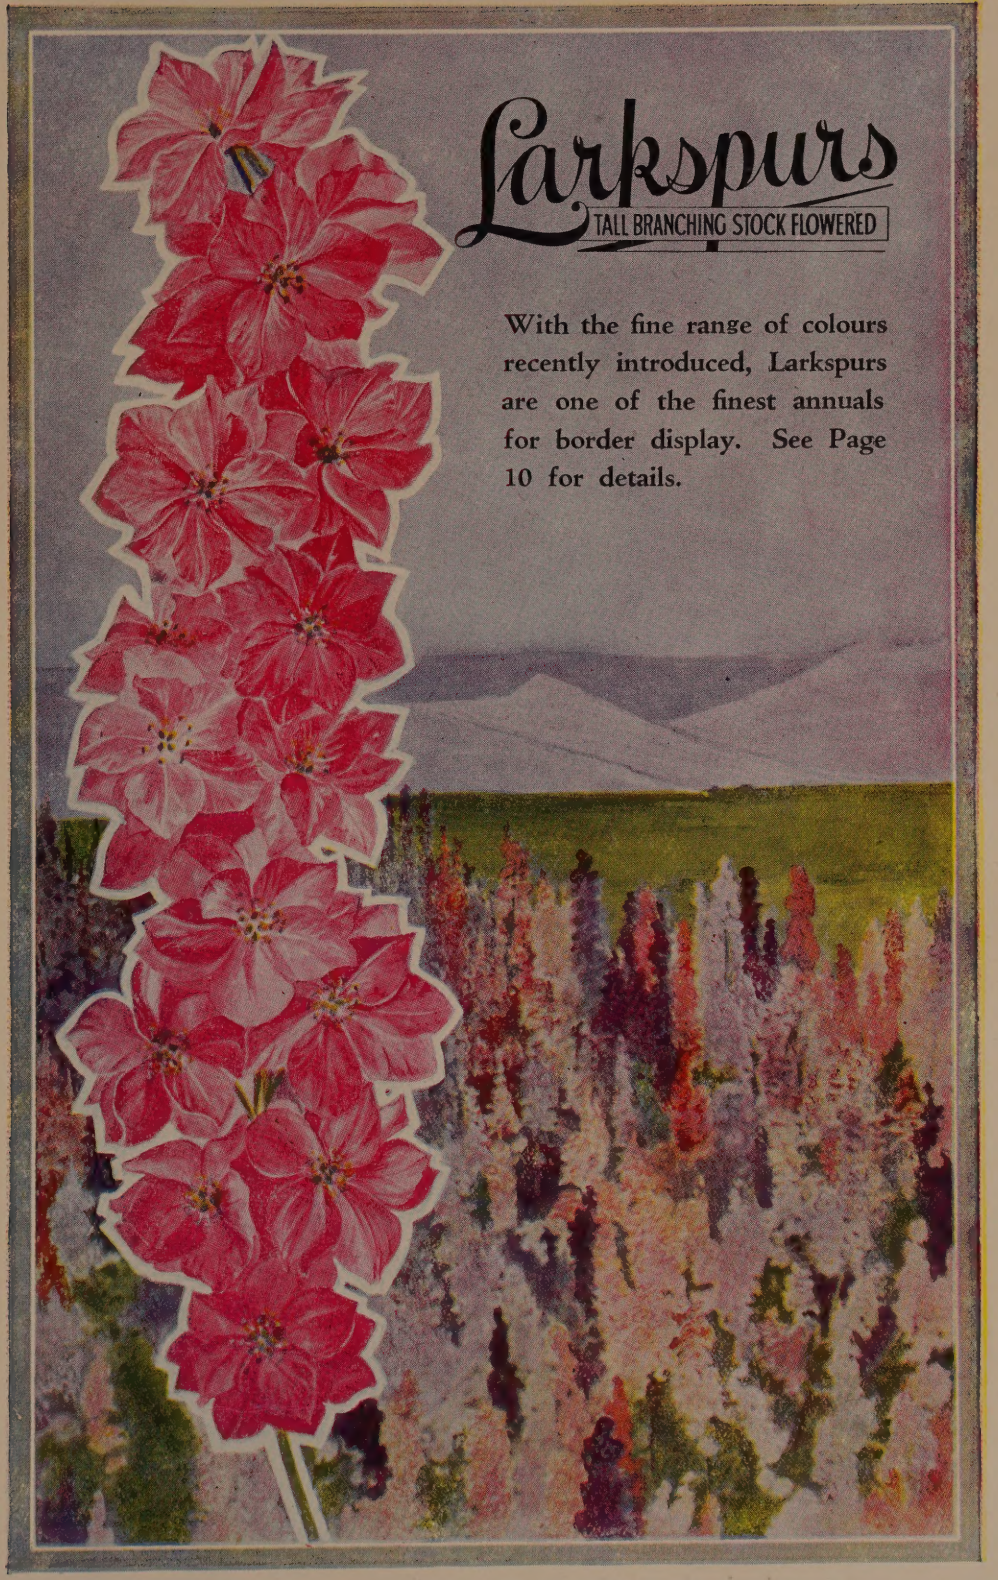

All amateur gardeners should have a copy of *Yates' Annual*. Write to P.O. Box 2707 C, Sydney, for your copy.
